

We are reminding everyone driving to the Elementary School that parking (even for just a quick second) is not allowed in the bus lanes from 7:30 AM -5:00 PM. Driving through bus lanes puts the safety of our school and visitors at risk. Clarendon street offers two quick drop off loops between 8:50 and 9:10.

Bus lanes are indicated by the long yellow rectangles in front of the length of the elementary school (not just in front of the crayons).

It is against state law to pass a school bus with flashing lights, regardless of where that school bus is stopped.

This is not a change in expectation, rather a reminder given the increase in traffic this year.

We will have school staff in front of the school to walk students safely to the main lobby on the sidewalk for students who are dropped off before school for band, chorus, or other activities. We will use reminder safety cones, school staff, as well as local law enforcement support to help with these concerns. We need to keep our students safe, and our guests driving and parking on our campus safe. Thank you for your help and support with this effort.
